

Revision Board Game 23

Aim:

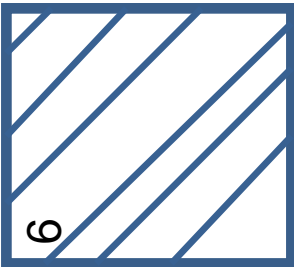

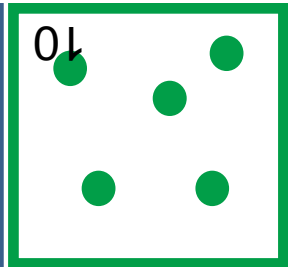

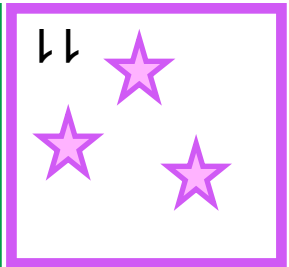

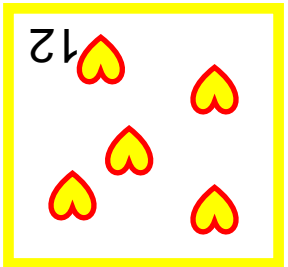

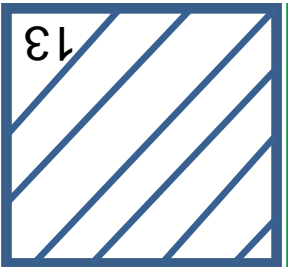

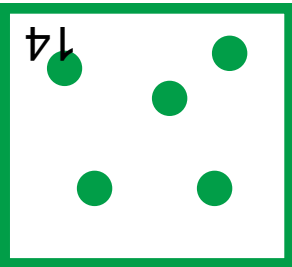

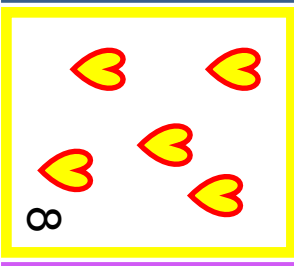

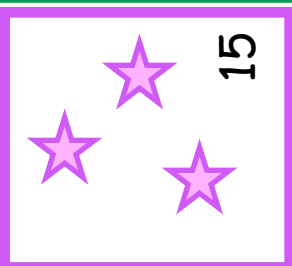

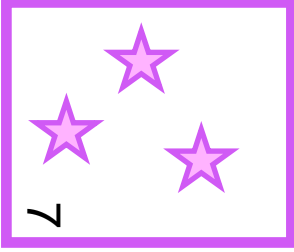

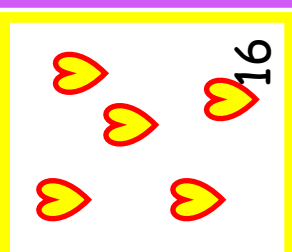

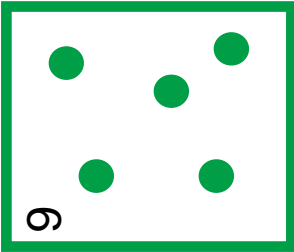

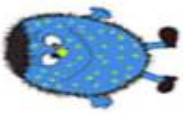

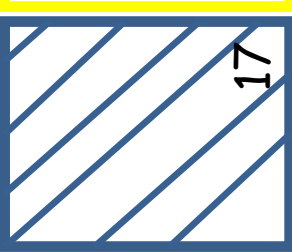

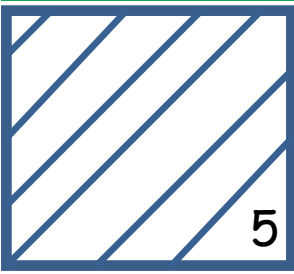

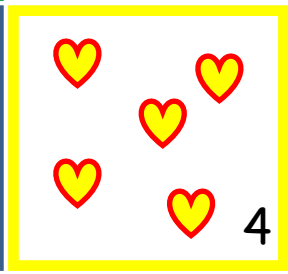

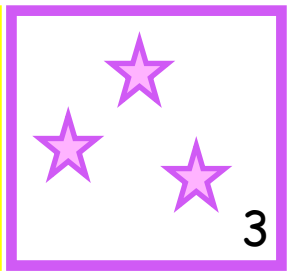

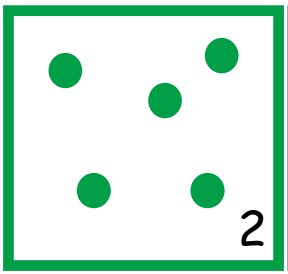

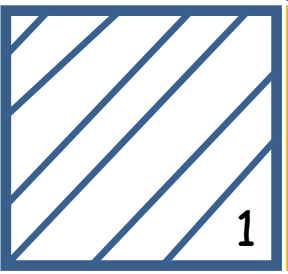

To reinforce the word level and sentence level content of the ten-week project.

2-6 players

To Play:

You will need the 'Task Cards Board', 'The Task Cards', a copy of the Recording sheet for each player, pencils, counters and a dice.

- The Task Cards are placed face down in the centre of the board.
- The first player throws the dice and places his/her counter on the appropriate number square on the board.
- S/he turns over the first Task card and reads the appropriate question for the design of the number square on which his/her counter has landed (stripes/heart/star/spot).
- If the player answers correctly, s/he marks his/her recording sheet by crossing out the first of the eight symbols that denote the question (stripes/heart/star/spot), and returns the Task Card to the bottom of the pile on the board.
- If the player answers incorrectly, s/he returns the Task Card to the bottom of the pile on the board.
- It is then the turn of the next player to throw the dice.
- The winner is the first child to cross off all eight pictures of each symbol. This will require several laps of the board.
- The game may be shortened by aiming to cross off a smaller number of symbols but one from each category should be the minimum.
